SUMMARY

Solution-driven developer with a collaborative mindset and a passion for solving complex problems. Proven experience building and maintaining user-centric web applications using HTML, CSS, JavaScript, ASP.NET, PHP, and SQL. Adept at cross-functional collaboration, reporting, and continuous improvements — with a growing interest in roles that bridge development, analysis, and project coordination.

TECHNICAL SKILLS

Languages: JavaScript, HTML, C#, PHP

Frameworks/Libraries: ASP.NET, React, Ajax, Bootstrap, jQuery, Tailwind CSS, TypeScript, SCSS

CMS: WordPress, Elementor, Wix

Databases/Hosting: Microsoft SQL, MySQL, AWS, Azure

Project & Design Tools: Git, Jira, Agile/Scrum, Azure, MS Office, Figma, Photoshop

PROFESSIONAL EXPERIENCE

ASP.NET Developer

Campus Support – New Westminster, BC | Oct 2023 – Present

- Maintained and enhanced ASP.NET-based web applications and internal tools.
- Collaborated with cross-functional teams to implement new features and resolve technical issues.
- Integrated third-party APIs including PandaDoc and AWS to streamline CRM workflows.
- Created custom reports to support business decisions and process automation.
- Participated in product testing, feedback, and iterative enhancements with team members.

Web Developer

AM/PM Service – Port Coquitlam, BC | Aug 2021 – Oct 2023

- Implemented new features and resolved bugs on customer-facing and internal web applications.
- Built responsive landing pages and dashboards using HTML, CSS, JavaScript, Bootstrap, jQuery, and ASP.NET MVC.
- Worked with Microsoft SQL to manage content and user data.
- Contributed to planning meetings and offered insights into usability and performance enhancements.

Web Developer

Fedroc Holdings – West Vancouver, BC | Oct 2020 – Aug 2021

- Maintained and improved existing Magento/WooCommerce websites.
- Developed websites using the LAMP stack (Linux, Apache, MySQL, PHP), along with SCSS, Bootstrap, and jQuery.
- Handled site hosting, backend integrations, and layout customization for performance and UX.

Web Designer (Volunteer)

Blue Humming Therapy – Remote | Sep 2019 – Nov 2019

- Redesigned a Wix website to achieve a modern, cohesive look based on branding and user needs.
- Worked closely with leadership to translate ideas into intuitive layouts.

Intern

WTFast – Kelowna, Canada | Feb 2014 – Apr 2016

- Conducted game testing for Korean games and provided insights on performance and user experience.
- Conducted market research for the Korean gaming market, analyzing trends and user behavior to enhance service offerings.

Document Controller

Samsung Techwin – Pangyo, Korea | Jan 2013 – Aug 2013

- Ensured accuracy, consistency, and revision control of engineering documents.
- Communicated between internal engineers and external stakeholders to streamline document workflows.

RECENT PROJECTS

AI Voice Integration

Integrated AI voice service into CRM for enhanced support workflows.

PandaDoc Integration

Embedded PandaDoc into CRM to enable seamless document creation and signing.

Company Website

<https://ampmmobile.com>

Built using ASP.NET Core, Bootstrap, and Microsoft SQL.

User Manual Web App

<https://docs.sdcloudpos.com>

Built internal documentation portal and admin page with ASP.NET Core.
